

since 1885
SOLANA®

KVALITET SA TRADICIJOM • QUALITY WITH TRADITION

Vizija • Vision

Razvijanje novih metoda za poboljšanje performansi poslovanja kako bi zadržali poziciju lidera na tržištu soli jugoistočne Evrope po definisanim standardima kvaliteta.

Ulaganje u razvoj i modernizaciju uz zaštitu okoline želimo podići svijest o očuvanju okoline i povećanju energetske efikasnosti.

Developing new methods for improving business performance, by defined quality standards, to maintain our position as a market leader in Southeast Europe.

Investing in development and modernization, while protecting the environment, we want to raise awareness about protecting the environment and increasing energy efficiency.

Misija • Mission

Proizvodnja i prodaja soli, te proizvoda na bazi soli prema definisanim standardima kvaliteta, koji će u potpunosti zadovoljiti zahtjeve kupaca.

Želimo obezbijediti brz i efikasan odgovor na zahtjeve kupaca, transparentnost u poslovanju, jačanje brenda i imidža koji će ojačati poziciju i povjerenje kupaca.

Production and sale of salt and salt-based products according to defined quality standards, which will fully satisfy customer requirements.

We want to provide a fast and efficient response to customer requirements, transparency in business, strengthening the brand and image that will strengthen the position and confidence of customers.

Sve je počelo 1885... • Everything started in 1885 ...

Solana (osnovana 1885.) je kroz svoju dugu industrijsku tradiciju uvijek zauzimala lidersku regionalnu poziciju. Dobro planiranom i društveno odgovornom poslovnom politikom uz potpuno uvažavanje tržišnih principa današnjice, permanentnim investicijskim ciklusima kroz modernizaciju proizvodnih pogona i adekvatnim upravljanjem ljudskim resursima je uspjela da ostvari povećanje efikasnosti svog poslovanja koje joj je omogućilo naglu tržišnu ekspanziju, te se etabirala kao ključnih proizvođača soli na tržištu jugoistočne Europe.

Solana (founded 1885) always had a leading regional position through its long industrial tradition. With a well planned and socially responsible business policy, with full respect for the market principles of today, through continuous investment cycles, through the modernization of production facilities and adequate human resources management, she was able to increase the efficiency of her business, which enabled her rapid market expansion, and established herself as a key salt producer at market of Southeast Europe.

Sistem upravljanja kvalitetom • Quality management system

Kroz integrисani sistem upravljanja kvaliteta Solana obezbijeđuje sigurnost svojih proizvoda, te ravnopravno konkurše sa svojim brend portfoliom na svim tržištima. Osim ISO sistema, Solana permanentno vodi brigu o kvalitetu svojih proizvoda i zdravlju svojih potrošača kroz primjenu HACCP, HALAL i KOSHER sistema za kontrolu kvaliteta proizvoda. Solana je prva BH kompanija koja je ovlaštena da nosi GC-MARK® oznaku za higijenu svojih proizvoda po odobrenju njemačke certifikacijske kuće DQS CFS German Association for Sustainability.

Through an integrated quality management system, Solana ensures the safety of its products and competes equally with its brand portfolio in all markets. Beside the ISO system, Solana constantly takes care of the quality of its products and the health of its customers through the application of the HACCP, HALAL and KOSHER product quality control systems. Solana is the first BH company authorized to wear the GC-MARK® mark for hygiene of its products which is approved by the German certification company DQS CFS German Association for Sustainability.

Kuhinjska jodirana so/sol • Table iodized salt

Kuhinjska jodirana so/sol je jedna od rijetkih bosanskohercegovačkih proizvoda sa više stoljetnom tradicijom. Visok kvalitet i besprijeckorna hemijska čistoća joj omogućava da dugi niz godina ostvaruje stabilno visoko tržišno učešće. Količina joda se automatizovanim procesom, podešavajuće i stručno dozira prema zahtjevima i važećim zakonima zemlje uvoznice.

Kitchen iodized salt is one of the rare Bosnian products with a long tradition. Its high quality and impeccable chemical purity enables it to achieve a stable high market share for many years. The amount of iodine is dosed in automated process which ensure precision according to requirements and applicable laws of the importing country.

Industrijska so/sol • Industrial salt

Solana d.d. Tuzla u svom proizvodnom asortimanu ima širok program soli za industrijsku upotrebu. Visok nivo NaCl-a (čak do 99,7%), a samim tim i čistoće soli pogoduje korištenju u svim proizvodno-prerađivačkim industrijama. Kvalitetnoj industrijskoj nejodiranoj soli, kao sirovini u dalnjem procesu proizvodnje, uglavnom preferiraju proizvođači koji vode brigu o svojim potrošačima.

Solana d.d. Tuzla has a wide range of industrial salts products in its wide product range. The high level of NaCl (up to 99.7%), and therefore the purity of the salt, is suitable for use in all manufacturing industries. Level of quality of industrial non-iodized salt which is used as a raw material in the further production process, is important to manufacturers who take care of their customers.

So/sol za stočnu ishranu • Feed salt

So/sol za stočnu ishranu je namijenjena za prehranu svih životinjskih vrsta. Naime, kako je bitno u ljudskoj ishrani svakodnevno ali kontrolisano konzumirati kvalitetnu kuhinjsku varenu so/sol, isto tako i u prehrani životinja je bitan kvalitet stočne soli. So/sol za stočnu ishranu je sipka i kvalitetna sa povećanim sadržajem joda. Takođe, so/sol za stočnu ishranu se koristi i kao sirovina za proizvodnju stočne hrane.

Animal feed salt is intended for the consumption of all animal species. Namely, as it is important for the humans to consume quality kitchen iodized salt every day, it is also very important in animal nutrition to consume quality animal feed salt. Animal feed salt is a quality salt with high iodine content. Also, animal feed salt is used as feedstock for production of forage.

Siva kožarska so/sol • Salt for leather industry

Ovo je specijalni so/sol namijenjena za potrebe kožarske industrije. Uklanja višak vlage iz kože, te ima antibakterijski efekat, pa kao takva je idealna za pripremu i očuvanje visokog kvaliteta kože za proces štavljenja i daljnju reprodukciju. Prednost ove soli se ogleda u njenoj specifičnoj granulometriji jer omogućava ravnomjerno nanošenje na kožu i izvrsno vezanje sa kožom te obezbijeđuje iznimne učinke pri procesu priprema i obrade kože.

Gray leather salt is a special salt intended for the needs of the leather industry. It removes excess moisture from the skin and has an antibacterial effect, so as such it is ideal for preparing and preserving high quality skin for the

tanning process and further reproduction. The advantage of this salt is reflected in its specific granulometry because it allows evenly apply on to the skin and excellent bonding to the skin and provides exceptional effects in the process of preparation and treatment of the skin.

0,5-0,6%

Tabletirana so/sol • Tablet salt

Tabletirana so/sol se proizvodi od industrijske soli visokog stepena čistoće. Primjenjuje se za demineralizaciju vode u: farmaceutskoj, laboratorijskoj i termoenergetskoj oblasti, procesnoj i prerađivačkoj industriji te ostalim oblicima industrijske upotrebe. Izrađuje se u dvije veličine i to Ø 16 mm i Ø 25 mm. Veličina uslovjava vrijeme otapanja tableteta što je prednost tabletirane soli u odnosu na krupnije kristaliziranu so/sol jer se postiže bolje iskorištenje.

Salt tablets are made of high purity industrial salt. It is used for demineralisation of water in: pharmaceutical, laboratory and thermoenergy, process and processing industries and other industrial uses. Made in two sizes, Ø 16 mm and Ø 25 mm. The time of tablet dissolution depends on the size, which is at the same time an advantage of the tablet salt over the larger crystallized salt, resulting in better yield.

Package	unit	kg	unit	kg	Type of packaging	Bare Cod product
25 kg	1	25	40	1000	PE bag	3870009000670

Putna so/sol • Road salt

Solana je jedna od rijetkih svjetskih proizvođača soli čiji je ekološki aspekt putne soli najprihvatljiviji. Naime, sadržaj netopivih materijala u njoj strukturi je čak 0,008% za razliku od ostalih soli koje se koriste kao posipni materijal čiji sadržaj netopivih i teških materijala je minimalno 2%. Takođe, prednosti ove soli je zbog sitnije granulometrije jer pokriva veću posipnu površinu i brže reaguje na nižim temperaturama.

Solana is one of the rare salt producers in the world whose ecological aspect of road salt is the most acceptable. The content of insoluble materials in this salt is 0.008%, unlike other road salts producers, which road salt is also used as a spreading material and whose content of insoluble and heavy materials is at least 2%. Also, the advantage of this road salt is in its finer granulometry, which allows better coverage of larger spreading surfaces and reacts more quickly at lower temperatures.

SOLAT - Tabletirana so • SOLAT - Salt tablets

SOLAT je tabletirana so namijenjena za upotrebu u domaćinstvima. Povećava dugotrajnost i učinkovitost uređaja za pranje, te spriječuje smanje potrošnje energije. Zbog visokog stepena čistoće i apsolutne razgradivosti ima povoljan uticaj na okoliš. Osnovna uloga tabletirane soli se ogleda kroz tri funkcije i to: sprječava stvaranje kamena, spriječuje pranje deterdženta za posuđe i produžava vijek trajanja perilice. Pakuje se u funkcionalnom LDPE pakovanju za zipper zatvaračem.

SOLAT is a tablet salt intended for household use. Increases the longevity and efficiency of the washing machines and helps reduce energy consumption. Due to its high degree of purity and absolute degradability, it has a favorable environmental impact. The basic role of tablet salt is reflected in three functions: it prevents scale formation, improves dishwasher detergent efficiency and extends the life of the washing machine. It is packaged in a functional LDPE zippered closure.
