

since 1885
SOLANA®

KVALITET SA TRADICIJOM • QUALITY WITH TRADITION

Sve je počelo 1885... • Everything started in 1885 ...

Solana (osnovana 1885.) je kroz svoju dugu industrijsku tradiciju uvijek zauzimala regionalnu leadersku poziciju. Dobro planiranom i društveno odgovornom poslovnom politikom uz potpuno uvažavanje tržišnih principa današnjice, permanentnim investicijskim ciklusima kroz modernizaciju proizvodnih pogona i adekvatnim upravljanjem ljudskim resursima uspjela je ostvariti povećanje efikasnosti svog poslovanja koje joj je omogućilo naglu tržišnu ekspanziju, te se etablirala kao jedan od ključnih proizvođača soli na tržištu jugoistočne Europe.

Solana (founded in 1885) has long held a leading regional position thanks to its long industrial tradition. With a well-planned and socially responsible business policy, full respect for today's market principles, permanent investment cycles through the modernization of production facilities, and adequate management of human resources, it has managed to increase business efficiency. This has enabled rapid market expansion and established Solana as one of the key salt manufacturers in the Southeast European market.

Sistem upravljanja kvalitetom • Quality management system

Kroz integrirani sistem upravljanja kvaliteta hrane Solana obezbjeđuje sigurnost svojih proizvoda, te ravnopravno konkuriše sa svojim brend portfoliom na svim tržištima. Osim ISO 9001 sistema, Solana permanentno vodi brigu o kvalitetu svojih proizvoda i zdravlju ljudi i životinja kroz primjenu FSSC 22000, Fami-QS, HACCP, Halal i Kosher sistema za kontrolu kvaliteta proizvoda.

Through an integrated food quality management system, Solana ensures the safety of its products and competes successfully with its brand portfolio on all markets. In addition to the ISO 9001 system, Solana continuously ensures the quality of its products and the health of people and animals through the application of FSSC 22000, Fami-QS, HACCP, Halal and Kosher quality systems.

Vizija • Vision

Razvijanje novih metoda za poboljšanje performansi poslovanja kako bi zadržali poziciju lidera na tržištu soli jugoistočne Evrope po definisanim standardima kvaliteta.
Ulaganje u razvoj i moderizaciju uz zaštitu okoline želimo podići svijest o očuvanju okoline i povećanju energetske efikasnosti.

Developing new methods for improving business performance, by defined quality standards, to maintain our position as a market leader in Southeast Europe.
Investing in development and modernization, while protecting the environment, we want to raise awareness about protecting the environment and increasing energy efficiency.

Misija • Mission

Proizvodnja i prodaja soli, te proizvoda na bazi soli prema definisanim standardima kvaliteta, koji će u potpunosti zadovoljiti zahtjeve kupaca.

Želimo obezbijediti brz i efikasan odgovor na zahtjeve kupaca, transparentnost u poslovanju, jačanje brenda i imidža koji će ojačati poziciju i povjerenje kupaca.

Production and sale of salt and salt-based products according to defined quality standards, which will fully satisfy customer requirements.

We want to provide a fast and efficient response to customer requirements, transparency in business, strengthening the brand and image that will strengthen the position and confidence of customers.

TUZLANSKA SO TUZLA SALT

Kuhinjska jodirana so/sol • Food grade iodized salt

Kuhinjska jodirana so/sol je jedan od rijetkih bosanskohercegovačkih proizvoda sa višestoljetnom tradicijom. Visok kvalitet i besprijeorna hemijska čistoća omogućavaju joj da dugi niz godina ostvaruje stabilno visoko tržišno učešće. Količina joda se automatizovanim procesom podešava i stručno dozira prema zahtjevima i važećim zakonima zemlje uvoznice.

Food grade iodized salt is one of the few Bosnian products with a centuries-old tradition. Its high quality and impeccable chemical purity enable it to maintain a stable and high market share over many years. The amount of iodine is adjusted through an automated process and precisely dosed in accordance with the requirements and applicable regulations of the importing country.

TUZLANSKA SO
TUZLA SALT

Industrijska so/sol • Industrial salt

Solana d.d. Tuzla u svom proizvodnom asortimanu ima širok program soli za industrijsku upotrebu. Visok nivo NaCl-a (čak do 99,7 %), a samim tim i čistoće soli pogoduje korištenju u svim proizvodno-prerađivačkim industrijama. Kvalitetnu industrijsku nejodiranu so/sol, kao sirovinu u daljnjem procesu proizvodnje, uglavnom preferiraju proizvođači koji vode brigu o svojim potrošačima.

In its production portfolio, Solana d.d. Tuzla offers a wide range of salts used in industrial production. The high level of NaCl (up to 99,7 %), and therefore the high purity of the salt, makes it suitable for use in all production and processing activities. High-quality industrial non-iodized salt, as a raw material in further production processes, is preferred by manufacturers who care about their consumers.

So/sol za stočnu ishranu • Feed salt

So/sol za stočnu ishranu je namijenjena za prehranu svih životinjskih vrsta. Naime, kako je bitno u ljudskoj ishrani isto tako je bitno i u prehrani životinja pravilno doziranje i kvalitet soli. Prema svom sastavu, so/sol za stočnu ishranu može biti jodirana i nejodirana. Također, so/sol za stočnu ishranu se koristi i kao sirovina za proizvodnju stočne hrane i premiksa.

Feed salt is intended for feeding all animal species. As it is important in human nutrition, it is also important in the nutrition of animals to have the correct dosage and quality of salt. Based on its composition, feed salt can be iodized or non-iodized. Salt for animal nutrition can also be used as an input for forage and premix production.

Siva kožarska so/sol • Salt for leather industry

Siva kožarska so/sol je specijalna so/sol namijenjena za potrebe kožarske industrije. Uklanja višak vlage iz kože, ima antibakterijski efekat i kao takva idealna je za pripremu i očuvanje visokog kvaliteta kože za proces štavljenja i daljnju reprodukciju. Prednost ove soli se ogleda u njenoj specifičnoj granulometriji jer omogućava ravnomjerno nanošenje i izvrsno vezanje za kožu, te obezbjeđuje iznimne učinke pri procesu priprema i obrade kože.

Salt for leather is a special salt intended for the needs of the leather industry. It removes excess moisture from hides and has an antibacterial effect, making it ideal for the preparation and preservation of high-quality leather for the tanning process and further processing. The key advantage of this salt lies in its specific granulometry, which enables even application, excellent binding to the leather, and exceptional effects during the preparation and treatment process.

Nitritna so/sol • Nitrite salt

Nitritna so/sol se koristi u mesnoj industriji za salamurenje mesnih prerađevina. Baza ove soli je sipka visokokvalitetna kuhinjska jodirana so/sol sa dodatkom natrijum nitrita (NaNO_2) sa rasponima 0,4 - 0,5%; 0,5 - 0,6% i 0,8 - 1,0%. Nitritna so/sol se ne smije koristiti direktno u ljudskoj i životinjskoj ishrani.

Nitrite salt is used in the meat industry for brining meat. The base of this product is high-quality food grade iodized salt with the addition of sodium nitrite (NaNO_2) in concentrations of 0.4 - 0.5%, 0.5 - 0.6% and 0.8 - 1.0%. Nitrite salt must not be used directly for human or animal nutrition.

SOLAX - Tabletirana so/sol • SOLAX - Salt tablets

Tabletirana so/sol (Solax) proizvodi se od industrijske soli visokog stepena čistoće te se koristi za demineralizaciju vode u farmaceutskoj, laboratorijskoj, energetskoj i različitim industrijskim primjenama. Solax tabletirana so/sol je dostupna u dvije veličine (Ø 16 mm i Ø 25 mm), te osigurava kontrolirano otapanje i veću učinkovitost te omogućuje više od 40% uštede u odnosu na rinfuznu i granuliranu sol.

Tablet salt (Solax) is produced from high-purity industrial salt and is used for water demineralization in pharmaceutical, laboratory, energy, and various industrial applications. Tablet salt is available in two sizes (Ø 16 mm and Ø 25 mm), and it ensures controlled dissolution and higher efficiency, providing more than 40% savings compared to bulk and granulated salt.

Putna so/sol • Road salt

Solana je jedan od rijetkih svjetskih proizvođača putne soli čiji je ekološki aspekt veoma prihvatljiv. Naime, sadržaj netopivih materija u njenoj strukturi iznosi svega 0,008% za razliku od ostalih soli koje se mogu naći na tržištu, a čiji sadržaj netopivih teških materija iznosi više od 2%. Također, prednost ove soli je njen sitniji granulometrijski sastav u odnosu na druge soli, pa tako pokriva veću površinu i brže reaguje na nižim temperaturama.

Solana is one of the few global producers of road salt with an environmentally acceptable profile. The content of insoluble substances in its structure is only 0.008%, unlike other salts on the market, where the content of insoluble impurities exceeds 2%. Another advantage of this salt is its finer granulometric composition compared to other products, allowing it to cover a larger surface and react faster at lower temperatures.

So/sol sa smanjenim sadržajem natrija • Salt with reduced sodium content

So/sol sa smanjenim sadržajem natrija namijenjena je svim osobama za svakodnevnu upotrebu. Posebno se preporučuje osobama sa povišenim krvnim pritiskom. Uloga ove vrste soli jeste da smanjuje rizik od povećanog krvnog pritiska, prevenira kardiovaskularne bolesti, smanjuje rizik od oštećenja srca, te poboljšava hidrataciju.

Salt with reduced sodium content is intended for everyday use by all consumers. It is especially recommended for people with high blood pressure. The benefits of this type of salt are that it reduces the risk of elevated blood pressure, helps prevent cardiovascular diseases, reduces the risk of heart damage, and improves hydration.

SOLAX - Tabletirana so/sol • SOLAX - Salt tablets

Solax je tabletirana so/sol namijenjena za upotrebu u perilicama posuđa u domaćinstvu. Primarni cilj je omekšavanje vode tokom pranja. Uloga tabletirane soli se dodatno ogleda kroz sljedeće tri funkcije: sprječavanje stvaranja kamenca, pospješivanje sredstava za pranje posuđa i produženje vijeka trajanja perilice. Zbog visokog stepena čistoće i apsolutne razgradivosti ima povoljan uticaj na okolinu. Upotreba Solax tabletirane soli donosi više od 40% uštede u odnosu na rinfuznu i granuliranu so/sol. Pakuje se u funkcionalnom LDPE pakovanju sa zip zatvaračem.

Solax is tableted salt intended for use in household dishwashers. The primary goal is to soften the water during washing. The role of tableted salt is reflected additionally through the following three functions: prevention of scale formation, improvement of dishwashing agents and extension of the service life of the washing machine. Due to its high level of purity and full biodegradability, it has a favorable impact on the environment. The use of Solax tableted salt brings more than 40% savings compared to bulk and granulated salt. It is packed in functional LDPE packaging with a zip closure.
